## Hack Live

[bit.ly/hack-live](https://bit.ly/hack-live)

We will be broadcasting the entire hackathon LIVE from Hack Live studios in Sydney, with weekend long LIVE coverage from our Melbourne Hackathon Hub. Kicking off 4pm Friday 23rd July, our 50 hour stream will broadcast The Welcome Ceremony, Presentations, Daily Reviews, Awards, Announcements and The Winners Announcement!

Please keep this LIVE feed open throughout the entire weekend to ensure you don't miss any key announcements. If you're lost, head to Hack Live to find out what we're up too.

## Slack

Slack is a free messaging platform, and will be the primary system used throughout the hackathon weekend. You will be sent an invitation via email prior to the hackathon, which will prompt you through the set up process.

## Collaboration Tools

You and your team can identify a digital collaboration tool that works for you! Some of the top options are ZOOM, Discord, Miro, Office365, Google (Docs & Sheets).
